(Way of Christ)

Large Print Edition

1996 version

Edited 2009

This booklet is a large print edition of the National Lutheran Secretariat's **"Pilgrim's Guide"**.

While the page formatting is different than that which is found in the small booklet, I have made every effort to keep all text unchanged. The formatting used here follows guidelines recommended for large print material.

All page numbers retain the same information as is found in the small booklet.

The font used here is Tahoma with 22 point being the smallest used anywhere in the booklet. Most of the text is 24 point, as is the text on this page.

God's peace,  
John Bradford
